

Healthy Community Development Mini Grants Awards 2010 - 2011
NJ Department of Health and Senior Services in cooperation with NJ Council on Physical Fitness and Sports

GRANTEE	Target pop.	Description
Summit YMCA	2000 Elementary students in Summit	Implement the CATCH program in Summit public schools in cooperation with local YMCA.
Warren County Health Dept.	Residents	Development of Recreational Resource Guide to provide opportunities for physical activity and increase awareness regarding venues.
Frances Desmares Elementary School - Flemington	Students, school and community	Creation of a school based community garden.
Boys and Girls Club Garfield	Youth	Continue and expand activities within the FUN program, including community gardening, acting as mentoring site for B & G of Lodi & Hackensack, GIS mapping and send 50 youth to RAMS camp in August 2010.
Greater Somerset Public Health Partnership	High school students in grades 9 - 12.	Health Advocacy Service-learning Initiative - aimed at educating youth on identification of barriers to healthy behaviors in their lives and in their communities. The initiative will be launched with an Advocacy Summit.
City of Lambertville	Hispanic & low income youth and families.	Create a community garden at Ely Memorial Field which is being donated by the city.
East Orange General Hospital	500 intergenerational community members	"A Walk in Time" is designed as an intergenerational, culturally sensitive public awareness walking project to increase physical activity, address obesity and draw community members to architectural and historic sites in East Orange.
Morris County Park Commission	Children and community members	Establish a teaching garden at the Lafayette Learning Center in Morristown in collaboration with Grow It Green Morristown.
Middlesex Regional Education Services Commission	Individuals with disabilities, parents/guardians, siblings and senior citizens.	Utilize the Center for Lifelong Learning for three evenings per week including water exercise, swim lessons, physical fitness activities and nutrition/health classes.

Montclair Public Schools - Edgemont Montessori	Students, families and faculty	Launch of a successful and innovative program that encourages students, their families and faculty to bike and walk to school. Every bike/walk trip to school is counted via a solar chip worn in student helmets / backpacks. Freiker = frequent biker system wirelessly counts trips.
Oxford Township School District	Community Residents	Create a fitness trail to provide access to a fitness trail for all residents during daylight hours.
Township of Ocean	Students, parents, police, township government, school faculty.	Complete a walkability audit to map walkable paths to school. Students will use information learned for a Walk to School Day one month after completion of audit.
Township of Maplewood	Adults and children in Maplewood, Milburn, and South Orange	Strategic placement of bike racks at several key recreational facilities in Maplewood to support the development of the MBN connecting three towns. Increase bicycle use for short trips between towns. Installation by township.
Ethel Jacobsen School, Surf City LBI	Elementary School Students	Create a school garden. A school based initiative that will provide experiential learning opportunities to promote fruit and vegetable consumption and routine physical activity by making healthy choices available in the school environment.
NCADD Hudson Partners in Prevention	NJ Colleges (New Jersey City University and Saint Peter's University)	Develop a nutrition and exercise task force and implement two policy and environmental change projects.
East Coast Greenway	School aged children	Pilot program for a walking school bus at the Hawthorne Elementary School in Newark.
Woodbridge Township Public Schools	School, faculty and community	Purchase materials for 2 walking tracks in school district. Installation by school district.
